We love our Emil side table for embracing retro silhouettes and cosmopolitan style. The naturally vibrant patterns found in burl wood have a distinctively 1970s feel—all kaleidoscopic swirls with a bold sense of cool. In our Emil 2-drawer Side Table, the material is shaped into a continuous C-curve, like a waterfall table turned on its side. The silhouette allows for an open platform above the lower drawer, perfect for placing a stack of books or a decorative statue. The two drawers are seamlessly inc orporated into the form sans pulls. An impressive hardware accent is found in its brushed brass base, which is slightly recessed to create a visual, structural contrast. The Emil Collection exudes elevated richness.Dimensions: W 25.5" x D 20" x H 24"
