Your surfaces haven't experienced the scale, texture, & dimension that the Surreal Vase brings to home decor. This tall vessel with a narrow base & rounded circular opening features handmade, hand-applied dimensional tapered tube shapes across the surface. Covered in an off-white reactive glaze, a warm clay undertone peeks through the edges. It's the perfect pop of texture on a bookshelf alongside other decorative vessels & objects, & it's also watertight for a floral arrangement or simple branches.Dimensions: Dia 11.25" x H 18"
