

TSJOMOLOENGA STOOL

SKU: HNR3011

Every Henry Dean object is created out of mouth blown and handmade glass. The use of a wooden mold is a very primitive technique to create glass objects and must be performed by the skilled hands of real artisans. Each time this mold is used, it burns out a little bit, thus giving each object its unique, handmade character. Each object is unique and dimensions will vary from piece to piece.
