

## DEARBORN BENCH

SKU: MOD5025B

The Dearborn Bench is defined by its material: fiber-reinforced concrete that incorporates granite stone powder, natural jute fibers, and Portland cement. The multi-use bench has been sealed to create a smooth surface and features a handle at each end. Over time the indoor-outdoor piece will develop a unique patina and personality, reflecting the surprising evolutionary nature of its industrial material. Dimensions: W 71" x D 13.75" x H 18.5"
