

# KYOTO VASE

SKU: BGW206L

The Kyoto vase is truly unique, available in large and small. It consists of hand-cast sculptural vases with the same silhouettes, one slightly taller than the other. They can be used individually or paired, where their difference in height creates a visual counterpoint that imbues them with immense charm. We've nestled a plexiglass liner in each vase for water allowing for the most amazing floral arrangements. Ideal for long branches and inventive flower arrangements. But if you'd prefer to display them empty, they hold their weight on their own. Reminiscent of the work of French Art Deco designers, the Kyoto Vase is interesting, impactful, and can be displayed together or separately for ultimate versatility.Dimensions: Dia 4" x H 10"
