

Sprial Statue

Short Description: Small

SKU: BGW220SM

$175.00

These abstract bronze-finished iron statues are influenced by the natural elements of the ocean. Our artisans sand-cast each piece giving the Spiral Statue an earthy texture and the shape of an eroded conch shell on the shore. A beautiful organic form that disappears over time but is rendered in a durable material to take on a more substantial presence. Its white marble base makes it perfect for display on your bookshelf, console, or in your home office.Dimensions: W 6" x D 3" x H 13"
